# Internet Thailand Public Company Limited

## Management Discussion and Analysis for 2Q2020

### Business Overview

Internet Thailand Public Company Limited (“Company”) is a one-stop service provider of ICT infrastructure for businesses and individuals who wish to use ICT as a tool to enhance competitiveness of their businesses. The company's services cover cloud services and digital services. Full internet network connection providing data center services with various devices for those who want an efficient service and an international standard. To use as a tool to increase efficiency for businesses.

### Impact from the COVID-19 pandemic

The COVID-19 pandemic has affected the overall economy of Thailand. Particularly from the contraction in tourism and exports including the announcement of various measures created to deal with the situation that has caused a wide impact in many industries. For ICT service businesses, although not directly affected by the said facility but indirectly affected by other industries. Short term and from the work from home trend in the end of the first quarter of 2020, everyone has to hurry to adapt to online seriously and quickly, such as "work from home" "Food delivery" "e marketplace" etc. Overall, the business of providing ICT services is still a very necessary business. While Thailand still has to have measures to close some cities or to maintain social distance.

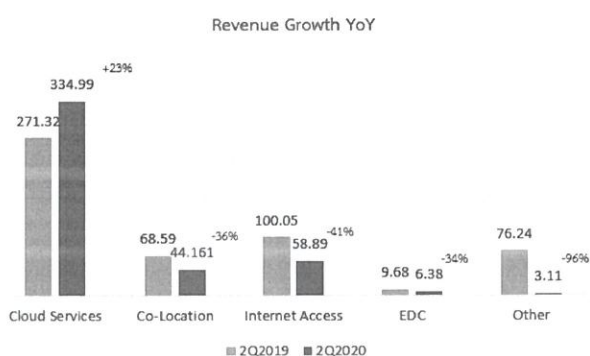

### Operating Results of 2Q2020

As the unusual situation of spreading of COVID-19 since the end of quarter 1/2020, the comprehensive revenue (INET and Joint Venture companies) is 461.78 Million Baht. Even though the company's revenue went down 12.19% from the last year, the company had been operating cost and expense effectively by reducing them 39.68%. In spite of increasing of financial cost and income tax, it affected to the company's gross profit reducing 22.91% and the company's net profit also reduced 83.12%.
